

# Windows solution

Monetize your users worldwide

## 3 different possibilities offered

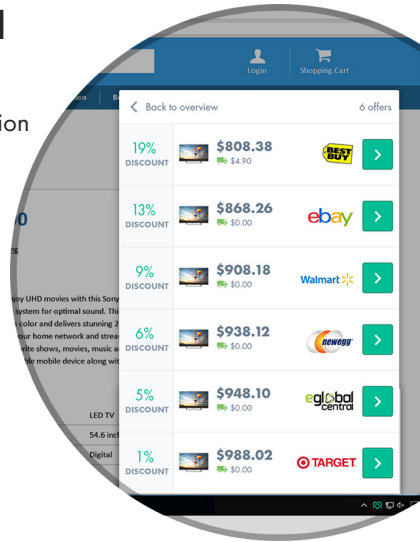

Distribute our Windows PricePretzel solution

Rebrand & distribute the Saving Advisor via White Label

Build your personalized product easily via SDK/API

## How does it work?

1

When the user browses the product page of a shopping website, we **identify the product** and match in **real time** better offers from our network.

2

A **notification** appears showing offers with price and product information.

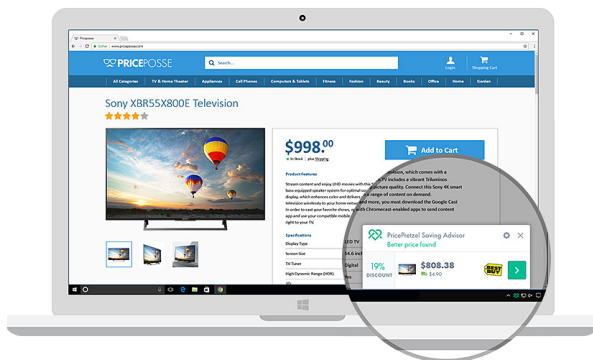

3

A drop-up menu shows **the offers, the coupons and the similar offers.**

# Windows solution

Monetize your users worldwide
